## SUMMARY

A results-driven **frontend** developer with **3 years** of experience delivering user-focused and performant web applications using modern web technologies. **React, Next, TypeScript, Node.js.**

## EXPERIENCE

### Moresand Technologies

*from Jan, 2025*

*Software Engineer II*

*Bengaluru, Karnataka*

- **Mocha** - Refactored a **1.7MB** monolithic JavaScript bundle into granular, page specific chunks reducing compressed bundle size by **60%**.
- **MOS Payment** - Developed a robust **payment form** with card and **Google pay** support featuring input masking, dynamic validations check on client and on server, error messaging with inline tooltips.
- **Morerooms** - Integration of **Strapi CMS** with **Next.js** platform, enabling customer support to manage and publish lead generation content independently, resulting in faster campaign rollouts and reduced developer dependency.
- **Mostel Dashboard** - Built a **Supplier Panel Dashboard** to streamline supplier onboarding, including hotel mapping, supplier access management, **reducing effort by 3-5 days per supplier.**
- Built dynamic hotel whitelisting and markup controls for pricing and supply channels across **5000+** hotel entries.
- **Tech Stack:** Next.js, React.js, TypeScript, JavaScript, TanStack Query, Strapi CMS, Node.js, Tailwind CSS, Ant Design, SASS

### Cogoport

*from July, 2022*

*Software Engineer*

*Gurugram, Haryana*

- **KAM Dashboard** - Created **Dashboards for KAMs** for the booking and tracking of shipment and **document record dashboards** for service ops.
- **Internal Tools** - Contributed to the **development of internal tools** and libraries to improve the efficiency of the development process thereby minimizing code redundancy and improving performance by around **20%**.
- Contributed to the **priority support team**, resolving production bugs. Conducted prompt investigations and swiftly resolved critical bugs with an **average resolution time of 24 hours.**
- **Detention module** - Built real-time visualizations for monitoring **detention and demurrage charges**, streamlining the billing process and minimizing manual effort by **30%**.
- **Rate management System** - Created rate management systems, which is one tool which is used in to calculate freight rate.
- Contributed to enhanced **accessibility**, optimized web performance, and **reduced deployment time** to deliver a superior user experience.
- **Migration** - Spearheaded the migration of legacy code to modern React architecture, increasing application **performance and scalability by 50%** and collaborated with DevOps to set up and maintain CI/CD pipelines.
- Mentored a team, focusing on developing their skills in frontend development building enhanced web applications.
- **Tech Stack:** React.js, Next.js, TypeScript, JavaScript, Redux, MicroFrontend, Webpack, Progressive Web Applications (PWA), Styled Components, SEO, SASS, RESTful APIs, React Native

## SKILLS

- **Technical Skills** - React.js, Next.js, JavaScript, TypeScript, Angular, Tailwind CSS, React Query, React Native, Redux
- **Domain Skills** - DSA, HTML, CSS, Axios, Jest, RESTful & GraphQL APIs, SEO, Web Accessibility, Strapi CMS
- **Tools** - Visual Studio Code, Jest, Figma, Git, Postman, Jira, Chrome Dev Tools, Webpack, Vite, PostgreSQL
- **Languages** - JavaScript, TypeScript, C++, C, Ruby, Java
- **Soft Skills** - Communication, Leadership, Critical Thinking, Time Management, Problem Solving

## EDUCATION

National Institute of Technology, Uttarakhand

**2018 – 2022**

*B.Tech in Electronics and Communication Engineering*

*Srinagar Garhwal, Uttarakhand*

## PROJECTS

**Portfolio Website** | [React](#), [JavaScript](#), [CSS](#)

- Created a responsive portfolio website showcasing experience, projects and more.
